Challenge 5:

What is the exact URL to which the relevant file goes to download spyware?

Opened the Relations tab in VirusTotal for the malicious Excel file.

Navigated to the Contacted URLs section.

Reviewed the listed URLs and identified one that was hosting an executable file. Clicked on the suspicious URL entry, which redirected to its own VirusTotal analysis page. Confirmed that multiple vendors flagged the URL as malicious and associated with spyware distribution.

Answer: <https://multiwaretecnologia.com.br/js/podaliri4.exe>
